Subject: Bank of WalMart

Enough Already! WalMart has changed this country in way too many ways.....none of them all that positive. Enough is enough! I remember when all our little towns had their own personalities, and I miss that. I know that things change, and that people have to change along with the times, but some changes aren't so good! There is already too much greed in Corporate America, and this is just one more bid for more power and more money for a very rich and powerful corporation.
